Professional Summary

Hello! I'm Rishabh, a third-year Computer Science student at Presidency University. My insatiable curiosity for all things tech drives me to explore the dynamic realm of computer science. From coding to intricate problem-solving, I find immense satisfaction in unraveling software development intricacies. My journey combines classroom learning with hands-on projects, and I believe every line of code can shape the future.
In addition to general tech exploration, I've honed expertise in Android development and drone-related technologies, which I'm deeply committed to advancing. Beyond screens, I'm passionate about emerging technologies, tech blogs, and creative projects.

Skills

- Web development projects
- Android Development
- AI/ML
- Database Management
- IOT
- Self-motivated & Team player

Education

2025
B.Tech | Computer Science and Enginnering | Presidency University | Bengaluru, KA
